

War in Ukraine

Results of the survey by TGM Research

Interactive report

The world has changed

In the early morning of February 24, 2022, Russian troops entered the territory of Ukraine from all sides. Fierce fights lasted all day. Russian forces carried out massive missile attacks, also targeting civilian objects.

This is an unprecedented situation in the history of modern Europe and causes social anxiety in the civilized world regarding the further development of the situation.

About the project

The survey was carried out on February 25-26, 2022 using the method of online interviews in 7 European countries and the United States on a representative sample of 18+.

The sample is representative of the adult population of the given country in terms of gender, age and place of residence.

	Schedule:	February 25-26, 2022
	Sample:	a representative sample of N = 10,204 total, inhabitants of surveyed countries, aged 18+
	Methodology:	internet interviews (CAWI), research project was entirely done by TGM Research

Country		Sample profile	Sample size
	Poland	18+	N=1550
	United Kingdom	18+	N=1242
